## Ellicott's Latin American Sales Manager Takes on Rohr-Idreco Product Line

February 9, 2016

Ellicott Dredges LLC & Rohr-Idreco Dredge Systems, which are owned by Ellicott Dredge Enterprises, LLC, are pleased to announce that Ellicott's Latin American Sales Manager, Andres Borasino, will be adding the Rohr-Idreco deep digging dredge product lines to his area of responsibilities. The three product lines complement each other by offering customers multiple dredging options based on their material and digging depth requirements. Andres has been with Ellicott for over four years successfully expanding the brand throughout Latin America.

*Rohr-Idreco RISD 600 (24") 100' digging depth dredge for removal of sedimentation behind the Inga dam in the Democratic Republic of Congo*

Rohr-Idreco Dredge Systems is a leader in the dredging world for designing and building deep digging electric or diesel electric modular dredges for the sand & gravel, mining, dam operators, governments and contractors for over 50 years.
