

Ocean Business17 Preview

March 2017

Revealing the latest in Sound Velocity Technology and more *Valeport, stand M1*

Valeport is using Ocean Business17 as the launch venue for a new sensor especially designed for the dredging community, which will be on show for the first time at Ocean Business.

Recognised as world leaders in sound velocity technology, Valeport's latest addition combines a new turbidity sensor with the SWIFT SVP (CTD) technology to create dredgeMATE - a very useful new profiler aimed at the dredging market.

Valeport will also introduce Connect, a new software platform for mobile and PC devices. Product Manager, Jim Gardner, will host a training session on Tuesday 4th April, 3.30pm at Ocean Business to present the new software platform which is designed for Bluetooth connectivity to interface, configure and download data from both legacy and new products.

Visit the Valeport team at stand M1 to find out more about the new dredgeMATE, Connect and their comprehensive range of marine instrumentation.
