

## Do You Need to Boost Your Dredging Operations?

Ellicott Dredges, LLC can help!

We have Booster Pumps to support pipeline dredging and enhance barge offloading.

**New Tier 4 Booster Designs**  
in 10", 12", 14", 18", and Now 20"

Contact **Ellicott Dredges** for available sizes and specifications

Standard Booster Pump

### Benefits of adding a booster pump station to your operation:

- Maintain high dredge production rates while increasing pumping distance.
- Enhance your submersible pumps to support barge off-loading.
- Transfer slurry directly from mix tanks and thickeners.

18-inch Booster Pump
