

The Long Beach Police Department chooses HYPACK® MARINE SEARCH

HYPACK is pleased to announce the sale of HYPACK® Marine Search to the Long Beach, California Police Department. HYPACK® MARINE SEARCH will be integrated with the departments existing Edgetech 4125, Kongsberg MS 1000 and Diver 6 equipment. “We're looking forward to using the system and seeing how it enhances our operations” commented Sgt. Steve L. Smock.

HYPACK®
MARINE
SEARCH is a
simplified and
user-friendly
software
package ideal
for

Police/Fire/Marine Departments. This package is designed to enhance search operations by improving efficiency and safety of divers through better real time navigation information and reduced time spent on the water. It integrates a GPS and Side-scan sonar to provide real-time bottom coverage with targeting and mosaicking capability.
